What's New In Taekwon-Do X10?

Taekwon-Do is a martial art from Korea, with roots in a style of Kung Fu that was popular in the Joseon Dynasty. According to a theory created by the practitioners, Taekwon-Do is

a “Scientific Martial Art,” a system of physical training and a way of life. According to the Dojang rules, the Taekwon-Do practitioner must learn the great art through a complete set of training hall rules. He must learn to be patient, self-disciplined and practice other techniques, while respecting other students and the fundamental principles of martial arts. Developed by the

Grandmasters of Taekwon-Do, the X10 edition is designed to reflect the principles that the art is based on. Taekwon-Do X10 is developed by Black Belt Masters, Grand Masters and other professionals that teach this art. Unique features of Taekwon-Do X10 – Self-Learning System, with over 20 lessons – Online Instructor that helps you learn the technique, terminology, and stances –

Easy to use, with step-by-step tutorials that allow you to find the information you need quickly - Training Hall to practice your techniques and improve your skills - 4 Steps Quiz with 16 questions, with immediate feedback - Video tutorials, with explanation of the techniques, terminology, stances and more - Interactive Stances - Move your body through each stance in the form of a Flash

animation - Detailed report of your progress The National Taekwondo team in the Youth Olympics in 2012 is an easy to use resource for indoor training, consisting of 15 easy to use drills divided by the level of the Taekwondo belt (white, yellow, green, blue and red). The levels are divided by color according to the international organization. National Taekwondo team, a classroom resource National

Taekwondo Team is an educational app, designed to help Taekwondo beginners learn how to do Taekwondo moves and develop a proper form. The National Taekwondo Team consists of 15 mini training sessions, divided by belts, that can be run in succession or practiced in a class. The training is divided into a front kick, punches, side kick, punches, spinning back kick, front kick, front kick,

spinning back kick, punches, kicks, and finishes. Each mini-session is led by a specific level of belt and allows you to see examples of the moves on a 2D representation of the Taekwondo stances. For each move, the app includes an interactive 2D scheme of the position that needs to be achieved. Each scheme also includes a line that indicates the drill and step-by-step instruction that will teach

you how to do the move.
